

TIME EXPERIENCE
Antiparos 2023

After the pandemic storm, we need to look far ahead, to understand what is really over and what is beginning to knock on the doors of this new phase.

For these reasons, it is necessary to understand how Antiparos will have to position itself in this new scenario and allow its tourists to prolong their presence and improve it in July, August and September.

This is possible by organizing events, as sensitive as possible to this new strategy. For these reasons we want to start preparing our project entitled:

Time Experience Antiparos 2023

In the meantime, we are asking you to join our project, giving us the opportunity to enhance, through a new strategy, the offer of your facilities, private homes, gardens, hotels, restaurants, taverns, cafes, bars, shopping and sports centers, boats, etc.

One of our staff, will contact you to arrange a more specific meeting on the details of the project.

Thank you for your cooperation!!!
